EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Deborah Peacock and Diane Albert on 25 February 2009.

The application has been amended as follows:

In the claims:

- a. In claim 1 at line 3, please insert the word --each-- before the words "said support pillar".
- b. In claim 1 at line 5, please delete the word "top" after the word "second".
- c. In claim 1 at line 9, please delete "said end top" and insert --said second end-- after the words "disposed at".
- d. In claim 1 at line 10, please insert a comma after the word "pillars".
- e. In claim 1 at lines 14-15, please delete the phrase "at said second end of said horizontal array support beam at said top end of said support pillar" and insert the phrase --at said second end of at least one of said support pillars-- after the word "disposed".
- f. In claim 1 at line 17, please delete the word "an" and insert --a tracking-- before the word "axis".

- g. In claim 1 at line 24, please insert the word --tracking-- before the word "axis".
 - h. Please delete the redundant number "4." at the beginning of the claim.
 - i. In claim 8 at line 2, please insert the word --said-- before the word "solar".
 - j. In claim 8 at line 3, please insert the word --said-- before the word "support".
 - k. Please replace the text of claim 11 with the following:
--The assembly of claim 7 comprising at least two said solar power arrays and at least two said support structures, wherein each end of each said horizontal support beam is connected to said drive assembly or to said rotor bearing assembly so that said at least two support structures are linked.--
 - l. In claim 19 at line 2, please insert the word --said-- before the word "solar".
 - m. In claim 20 at line 1, please insert the word --tracking-- before the word "axis".
2. The following is an examiner's statement of reasons for allowance:
- The claims are deemed allowable due to the limitation to a rotor bearing assembly having the detailed structure recited in lines 12-15 of claim 1. None of the prior art of record teaches or fairly suggests a solar tracking assembly having such structure. The closest prior art is considered to be represented by Prideaux et al (US 4,429,178) and the DOE/ET/23053-1 document (Hereby made of record). The support

pillars of the arrays taught in Prideaux et al (e.g. Figure 3) and DOE/ET/23053-1 (e.g. Section 3.2.1 and Appendix D, Drawings 7473-112, 7473-113, 7473-120, 7473-122, and 7473-124) lack any teaching or suggestion of the instant rotor bearing assembly coupler tube that is rotatably disposed in both a sleeve bearing and within a coupler torque tube as instantly claimed. No fair teaching or suggestion was found in the prior art of record that would have led one having ordinary skill in the art at the time the invention was made to modify the structures of these references to meet these limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Jeffrey T. Barton whose telephone number is (571)272-1307. The examiner can normally be reached on M-F 9:00AM - 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
